

COURTS & JUSTICE

PRODUCT | ODYSSEY FINANCIAL MANAGER

Financial management in any office needs to be safe, stable, and auditable. It's not just a convenience—it's a requirement. Courts must be able to track accounts, process finances, and manage transactions quickly and efficiently.

Why Choose Odyssey Financial Manager?

Tyler's Odyssey Financial Manager was designed specifically with courts in mind. Our team of experts researched the needs of courts to understand their requirements. That's why Financial Manager tracks all of court offices' financial data with ease—and guarantees that it stays accurate and up-to-date.

Odyssey Financial Manager not only offers comprehensive account management functions for viewing and managing financial transactions, but also includes a variety of customizable reports so data can be organized into many easily-deciphered formats. Use account reports to produce a summary of financial activity, or generate a detailed account balance for one or more locations. Users can even produce a report of account transactions from the transaction register.

With Odyssey Financial Manager courts can also verify payment forms, track accounts, control which citations are paid online, and generate needed reports. Data entry is quick and easy, and information is always up-to-date.

Streamlined Integration

As with all Tyler products, Odyssey Financial Manager is fully-integrated with many other Odyssey products. It's able to better facilitate the movement of data between applications, and it streamlines processing functions. Redundancy in data entry is decreased, and information is easier to find.

Odyssey Financial Manager controls the entire transaction audit trail without having to rely on a third-party financial application. Additionally, by integrating with the Odyssey Case Manager's financial transactions, users can access an overall view of their court's chart of accounts, streamline bank deposits and check exports, as well as pass check number information back to Case Manager.

Financial Manager also integrates with:

- Odyssey Jail Manager
- Odyssey Check Manager
- Odyssey Supervision
- Odyssey Index

Financial management for courts has never been easier. That's why court offices choose Tyler.

Odyssey Financial Manager—ensuring court financial information is always safe, stable, and auditable.
